

# Gluten Sensitivity Menu

## **Gullifty's Gluten Sensitivity Statement:**

Although we can prepare dishes with gluten-free ingredients, we cannot guarantee any of our dishes are completely gluten-free. Even with a strict adherence toward maintaining a spotless facility, we simply have too much wheat and gluten present to be able to completely eliminate the cross contamination on our equipment and food prep areas. If you are highly allergic or intolerant to gluten, we recommend checking with your physician before dining at Gullifty's.
